SPECIFIC CHARGES THAT APPLY TO YOU

CLEANINGS
Not All Cleanings Are Free

Cleanings that are covered 100% under your dental plan are routine/simple cleanings only. "Routine" means above the gum line. Patients who have tartar, plaque, or buildup under the gum line require a different, more involved cleaning procedure. There is a completely different billing code and charge for these types of cleanings and your dental plan may or may not cover it. Most patients who have not been examined by the dentist for more than six months require more than a routine cleaning. It is not appropriate for us to perform a routine cleaning and leave the debris under the gums. Professional treatment standards require your dental hygienist or dentist to clean properly under the gum line in order to restore your dental health. We encourage you to ask your hygienist or doctor after your complete examination which type of dental cleaning will be necessary to address your dental care.

WE ARE A MERCURY-FREE OFFICE

We believe that mercury is a toxic substance that should not be put in your mouth. Therefore, we do not do amalgam fillings that contain mercury. Our fillings are made of composite, mercury-free materials. Some insurance companies will only partially cover composite fillings in posterior teeth. We strongly believe that keeping your body free from toxic materials like mercury is worth the small difference in your co-pay for composite fillings.

I have read and understand the specific charges that apply to me as outlined above.
